

Donors & Sponsors Page - Final Review

Page URL: <https://seofixesvts.wpenginepowered.com/donors-sponsors-3/>

Purpose: Recognize verified donors and community partners, explain what support funds, and direct visitors to donate or become a sponsor.

Brand	Veterans Transition Support (VTS)
Primary color	#254771 dark blue, with white and light-gray backgrounds
Tagline	From Service to Industry
Global rule	Use the same approved VTS header, footer, logo, contact information, navigation, typography, and mobile behavior across all five pages.

Approved page direction

- Keep the overall donor-recognition concept, but strengthen VTS branding and remove all demo, placeholder, misspelled, or unverified content.
- Use the page title **Donors & Community Partners** and a clear hero message focused on investment in military career transition.
- Do not publish a donor amount, logo, quotation, date, impact claim, or program attribution unless VTS has verified and approved it.
- Use real VTS statistics only. Replace the current placeholder counters with verified figures: **15,000+ military community members served, 737 career-coached veterans landed jobs, and \$41.1M+ in first-year salary impact**. The fourth counter may read **Since 2014** or another verified outcome approved by VTS.
- Remove the statement “100% Funds Veterans Directly.” Use accurate language such as: **Your support helps fund VTS training, credentials, career coaching, and educational resources**.

Hero section

Eyebrow	Donors & Community Partners
Headline	Invest in Veterans. Strengthen America’s Workforce.
Intro	Thank you to the businesses, organizations, foundations, and individuals who help Veterans, Service Members, Reservists, National Guard members, and Military Spouses move from military service into civilian careers.
Primary button	DONATE TODAY - link to the approved Donate page/Zeffy flow
Secondary button	BECOME A COMMUNITY PARTNER - link to the approved contact or sponsorship inquiry process

Donor spotlight and archive

- Keep a featured donor spotlight only when the donor, amount, logo, date, and impact description are confirmed.
- Correct all spelling and spacing errors, including “Sponsor,” “Veteran Career Training,” and organization names.
- Do not show “Programs Supported: Beatbox” or any similar test text.

- Each spotlight card should contain: approved logo/photo, donor or partner name, optional approved gift amount, date, concise impact statement, and a working “Read More” link only when a real detail page exists.
- If no real spotlight archive exists yet, hide the archive section rather than publishing fake entries or dead buttons.

What support funds

- Career training and industry-recognized credentials
- OSHA safety training and cards
- Lean Six Sigma certification training
- Resume writing, interview preparation, and career coaching
- Workforce-readiness programs and professional education resources

Sponsor recognition levels

Use sponsor tiers only if VTS intends to maintain them and has verified which organizations belong in each level. Logos must be sharp, evenly sized, linked only when approved, and displayed without distortion.

Gold Sponsors	\$10,000 and above
Silver Sponsors	\$5,000-\$9,999
Bronze Sponsors	\$2,500-\$4,999
Community Supporters	Approved in-kind, event, or community partners; do not imply a cash amount unless verified

Honor Wall and recognition form

- Do not promise that every contribution automatically earns permanent public recognition. Public listing must be optional and donor-approved.
- The recognition form should not replace the Zeffy donation form. It may collect recognition details after a donation or sponsorship has been verified.
- Collect only what is needed: donor/contact name, email, person or organization being recognized, public-display preference, in-honor/in-memory selection, and optional message.
- Do not require a phone number unless VTS truly needs it.
- Allow the donor to keep the gift amount private and to remain anonymous.

Footer and quality corrections

- Replace the staging email address with the real VTS email address.
- Use the approved VTS address, phone number, EIN, social links, Privacy Policy, Financials, Contact, and Donate links.
- Remove duplicate logos, empty image placeholders, dead “Read More” links, and any sample dates or names.
- When this draft replaces the existing live page, redirect the old URL and do not leave duplicate Donors/Sponsors pages indexed.

Final implementation note: Remove all placeholder/test content before launch. Confirm desktop, tablet, and mobile layouts; test every button, form, filter, link, email notification, and approval workflow.
