7. Desktop and mobile display

Desktop

- Use a clean table layout
- Use alternating light row backgrounds
- Make rank and salary easy to compare
- Keep the salary column clear and easy to scan

Mobile

- Convert each entry into a readable card
- Do not force visitors to scroll sideways through a wide table

8. Test data and placeholder content

- Remove all demo, test, and placeholder entries before launch.

- Only verified and administrator-approved job outcomes should appear on the live board.
- Remove any extra dots, filler text, or placeholder elements above the footer.

9. Testimonial

Keep the testimonial because it is tied to a real VTS outcome. Keep the testimonial wording only if John has approved it.
