

Events Page Design & Copy Direction

Prepared for Muhammad

Final approved direction - top to bottom

GOAL

Create a clean, professional VTS Events page that helps visitors quickly identify the exact program they want, understand whether it is online or in person, and register without confusion.

1. HERO SECTION

- Use a full-width, medium-height hero image. Do not make it so tall that visitors must scroll far before seeing the events.
- Photo direction: a diverse group of Veterans, service members, and military spouses participating in a professional classroom, career workshop, mentorship session, or safety training.
- Use civilian or business-casual clothing. Avoid combat imagery, camouflage graphics, flags as the main image, dog tags, or obvious staged handshakes.
- Place a dark VTS navy overlay over the photograph so white text remains highly readable. Left-align the text.

Hero copy

Heading: Upcoming Training & Events

Introductory text: Explore upcoming training programs, career workshops, VA benefits briefings, and special events created to support Veterans, Active-Duty Service Members, Reservists, National Guard Members, Military Spouses, and Base Staff.

Button: VIEW UPCOMING EVENTS

- The button should scroll directly to the event listings.
- Change the breadcrumb/page label from “Up Coming Events” to “Events.”

2. FIND YOUR PROGRAM

Keep a clear program-finder section near the top of the page. Visitors often arrive looking for a specific program name, so list the programs individually rather than using only broad categories.

- OSHA 10-Hour Safety Training

- OSHA 30-Hour Safety Training
- Lean Six Sigma Yellow Belt Certification
- Lean Six Sigma Green Belt Certification
- Accident Investigation & OSHA Recordkeeping
- Warehouse Safety Plans & IIPP Training
- LEAN 5S Workplace Organization
- VA Disability Claims Workshops
- VA Home Loan Workshops
- Russell's Mission Brief: Veterans Career Pathway Mentorship
- Free Access to Coursera
- Use one consistent line-icon style. Navy icons with restrained red accents are preferred.
- Do not list "Zoom / Online" or "In-Person San Diego" as programs; those are event-card labels.

3. QUESTIONS BOX

Heading: Questions About an Event?

Text: Need help choosing the right program or completing your registration? Our team is here to help.

Button: CONTACT VTS

- Keep this as a compact pale-gray or pale blue-gray callout placed near the program list or immediately above the event feed.

4. EVENT LISTINGS & CARD DESIGN

Use a consistent card structure for every event:

- Date displayed clearly
- Full program title
- Format label: Online via Zoom or In Person
- Cost label: No Cost or the exact registration price
- Brief description
- Primary button: REGISTER NOW
- Secondary button, only when appropriate: LEARN MORE
- Use white cards with a thin light-gray border or subtle shadow. Keep spacing, card height, button style, and label placement consistent.
- Use navy for event titles and VTS red for primary buttons. Do not assign random colors to different programs.
- For VTS no-cost programs, display the eligible audience clearly: Veterans, Active-Duty Service Members, Reservists, National Guard Members, Military Spouses, and Base Staff.

Russell's event title and description

Title: Russell's Mission Brief: Veterans Career Pathway Mentorship

Description: A live resource briefing and Q&A with Russell Levy focused on career direction, transition support, and practical guidance for Veterans and military families.

5. “CAN’T ATTEND?” SECTION

Heading: Can’t Attend This Event?

Text: New training programs, workshops, and resource briefings are added throughout the year. Check back often or subscribe for upcoming event updates.

Button: SUBSCRIBE FOR UPDATES

IMPORTANT: Remove all wording that promises recordings, replays, class materials, or post-event access. VTS does not record its events and does not send recordings.

- Remove the separate “Stay in the loop” newsletter block so the subscription message is not repeated twice.

6. COLOR & VISUAL DESIGN DIRECTION

- Use the exact VTS Global Colors already established in Elementor. Do not introduce new shades or approximate the logo colors.
- Primary use: VTS navy for the hero overlay, headings, strong backgrounds, and footer.
- Accent use: VTS red for primary buttons, small dividers, icons, and key highlights. Red should not dominate the page.
- Use white for event cards and primary content areas; use a very light neutral gray or pale blue-gray for alternating sections.
- Use dark charcoal for body copy rather than pure black.
- Use the same heading and body fonts already established across the VTS website. No script fonts and no all-caps paragraphs.

Color role	Required source	Use
VTS Navy	Elementor Global Colors	Hero overlay, headings, footer
VTS Red	Elementor Global Colors	Buttons and accents
White	#FFFFFF	Cards and primary backgrounds
Light Neutral	Existing site global color	Alternating sections
Body Text	Existing site global color	Readable paragraph text

HEX-CODE REQUIREMENT: Before implementation, copy the exact navy, red, neutral, and body-text hex values from Elementor → Site Settings → Global Colors into the project notes. Do not sample colors from screenshots or substitute “close” colors.

7. FOOTER

Keep the footer structure but simplify and rename the sections as follows:

Follow VTS: Facebook, X/Twitter, Instagram, YouTube, and LinkedIn

Explore: About VTS; Programs; Events; Veteran Resources; Veteran Success Stories; Financials

Get Involved: Volunteer; Donors & Sponsors; VA Work Study Program; Contact Us; Donate

Contact VTS: 334 Via Vera Cruz, Suite 203, San Marcos, CA 92078; 760-798-0333; correct VTS email address

- Remove “Home” from the footer because the logo already links home.
- Change “Testimonies” to “Veteran Success Stories.”

Copyright line: Copyright © 2026 Veterans Transition Support. All Rights Reserved.

8. APPROVED PAGE FLOW

1. Hero photo + page heading + VIEW UPCOMING EVENTS button
2. Find Your Program
3. Questions About an Event?
4. Upcoming event listings
5. Can't Attend This Event? + SUBSCRIBE FOR UPDATES
6. Footer

9. FINAL IMPLEMENTATION NOTES

- Keep the top portion compact so visitors can reach the first event quickly.
- Make the page fully responsive on desktop, tablet, and mobile.
- Maintain strong contrast and readable type sizes.
- Keep all buttons visually consistent.
- Use “Events” as the clean page name and /events/ as the preferred URL structure.
- This document addresses approved page design and copy direction. Event dates, prices, registration destinations, and feed behavior will be confirmed separately before launch.
